PROFILE

Hello! I'm **Abhash Raj**, a passionate B.Tech student specializing in **Computer Science Engineering** at **IIT Indore**. Currently in my second year, I am driven by a profound interest in technology and its ability to solve real-world problems. My journey in the field of computer science began with a fascination for coding and web development, which has only grown as I explore the endless possibilities that technology offers.

PROJECTS

HEALTH MONITORING APP
WEB DEVELOPER

- The Patient Health Monitoring App represents a significant advancement in healthcare technology, enabling proactive patient care through real-time monitoring and data analysis. By leveraging this application, healthcare providers can offer personalized care, enhance patient engagement

CULLINARY COMPASS
MACHINE LEARNING

- Culinary Compass revolutionizes the way individuals approach cooking and dining by offering a wealth of resources at their fingertips. By merging technology with culinary arts, the app empowers users to explore their culinary passions, create memorable meals, and connect with a community of food lovers.
